

Accelerated Reading Program

Second Grade

This year your child will be participating in the Accelerated Reading Program. In this program, your child will be reading books that are classified as "Accelerated Reading Books", and taking a computer generated test on the book to check for comprehension.

At Nescopeck, we have many accelerated reading books in our library and classroom library which are included in the list of AR Books for your child to choose from. Our Librarian, can show the students where to find these books in the library. Each of the books has a level and point value the students can get if he/she passes the test that corresponds with that book. Each student will have a point goal to reach each marking period.

In second grade, we are encouraging students to read books on personal levels. We want this to be an exciting way to become accountable for the books they are reading.

In second grade, we encourage all students to participate. There is not a grade for this program. We encourage all to read and reach Personal goals. As your child reads a book and takes a test they will earn points.

Please encourage your child to read in and out of school. Books can be brought from home and your teacher will check to see if there is an AR test on it.

Thank you and feel free to contact me with any questions.

Each time your child passes an AR Test they will get a star on their punch card. When they get 20 stars they will earn a prize from me. Each child will have an individual MP point goal to reach to receive a special treat.
