Superintendent’s Report: Wendy Kupsky
Last Friday, I was sworn in at Judge Knecht’s office. Tomorrow will be my official start date as the Superintendent of the school district. Mr. Culver and I did a walk-through in three of the buildings today. We saw many teachers in the buildings working in their classrooms. Teachers that I talked to were excited and anxious to see their students come back for the 2020-2021 school year. They are making preparations for the students academically and making it safe to attend school, based on the CDC guidelines and the pandemic. We are still planning on moving forward with elementary coming in every day and secondary coming in every other day. Students are still starting on August 20th. Each building should have a virtual tour posted on their building website. Kindergarten is still moving ahead with a kindergarten orientation. From my standpoint, I support athletics and any type of extracurricular activity. I think now at this time, it is essential for kids to be moving physically. We are going to work with them educationally; working with their minds. Physical activity and movement is equally as essential to a person’s well-being, as long as we can do it safely. I support athletics as long as it is done safely. I am not focusing on cancelling anything; things will be postponed. I believe if we can fit things in when it is safe, then those are the things that we should be doing. We may have to think outside the box. The message I continue to send to parents and our faculty and staff is: #1 I want to get the students in and I want to have them educated safely, #2 I want to focus on extracurricular and sporting and #3 Getting the fans, spectators and parents in to be able to watch their students. We know that athletics have been pushed back by two weeks. Today, some additional guidelines have come out specifically for determining instructional models during the COVID pandemic. It provides some guidelines for new cases. If fewer than 10 new cases reported in a county in the most recent seven day reporting period, the county will automatically qualify as exhibit of community transmission. Transitioning between instructional models: a county’s corresponding threshold may change week-by-week as incidence and percent positivity rates rise and fall. In order to confirm stability of county transmission, when a county’s corresponding threshold changes, school entities should wait to see the results from the next 7-day reporting period before considering a change to their instructional models. To ensure the most effective transition for students, it may be appropriate for a school to wait even longer, up to a full marking period, to transition to an instructional model that increases in-person instruction. Part of our plan that was proposed at the last meeting was for a full marking period and then making our decision after that.

Reports:

Committee Reports:

Academic Affairs – Robert Croop
- We have not met since the last report.

Athletic Committee – Joseph Orlando
- Two week delay of our sports. August 24, 2020 will be the first day of practice. September 11, 2020 will be the first games. Golf and tennis are starting a little early because they are noncontact. August 27, 2020 and August 31, 2020. I don’t know if it’s over yet. I have heard that PIAA has a plan that the three sports meet in the spring. January and February would be winter sports, March and April would be fall sports, May and June would be spring sports. No one has any specifics on it. It would probably be eight week seasons. It may be only league games and league championships. This is all hearsay. I don’t think we are over this yet. We have an AD meeting to redo our scheduling. We are waiting for PIAA and the Governor to make a decision.

Budget Committee – Keith Hess
- We have not met. We will meet in the near future.
Buildings and Grounds Committee – Benton Culver
- Met today.
- Hilliard program (CAT) to improve our custodial department.
- Capital projects.
- Return to school update. We got a lot of our supplies in. We are waiting on some.

CSIU – Susy Wiegand
- No meeting.

Vo-tech – Keith Hess
- Usual business with hires for upcoming year.
- We voted on our pandemic plan which is a full return for the time being, however that plan has been made to be very fluid because of the ongoing circumstances.
- Next meeting is scheduled for next week.

Old Business:
Maryann Kovalewski - When it comes to keeping kids, staff, teachers and administrators safe, I think we have to air on the side of caution. Being safe is a right or it should be a right not an accommodation. I know our situation is fluid. I still have concerns about the hybrid model. I know there is no simple solution in this situation. The numbers in Columbia County have been decreasing and they are very good. The problem is Luzerne County numbers continue to increase by double digits every day. We have 2 ½ school buildings in Luzerne County. What I am recommending/suggesting, if we do not want to delay the start of the school year by two weeks, if we do not want to begin virtual for two weeks and then reassess, what I am going to ask is that we meet as a Board every two weeks to continually assess the situation and be updated. I don’t think this can wait for a month to month board report. We have to do everything that we can to keep our kids safe.

Susy Wiegand – We are going to try to go back to Committee as a Whole. We will start next month. The Committee as a Whole will be on Tuesday, September 8, 2020. This will help us with the planning. The next Board meeting will be Monday, September 14, 2020. If we have to meet before the next meeting, will can do that.

Wendy Kupsky – New guidelines today: Full In-person Model: School is open each day with in-person instruction for all students (with some students/staff in a remote setting as health and safety concerns require).
Blended (Hybrid) Learning Model: Any model in which the number of students in a school building is reduced to allow for social distancing of six feet. This may be accomplished in many ways, including split schedules, schedules that rotate by day or week, or similar approaches. For these recommendations, blended learning also includes scaffolded approaches that treat grade levels in a differentiated manner.
Full Remote Learning Model: Any model in which all students engage in all learning remotely
Wendy Kupsy – We have about 225 elementary students that decided to go cyber which reduces significantly the amount of students that are in our buildings. We are able to maintain that six feet. The reason we chose to do the hybrid at the secondary level is because we are able to maintain that six feet. The older the students get the more susceptible they may be to the virus. It’s also about the teachers, faculty and the staff. It’s all about social distancing and wearing the masks. That is why we chose that model.

**New Business:** None

**Public Comment:**
- Jennie Murray – Band practice vs performing before games. *We need to get the event first, then who will be allowed to be in there will be determined.*
- William Phillips – Distance of desks currently. *Some of the desks got moved around from when they were set up. Not all the classrooms are set up. Some of the desks were not moved because they didn’t want to have them placed in storage. Not all desks are being used.*
- Emily Scranton – Contact tracing. *Yes, we are looking at that.*
- William Phillips – Contact tracing. *If positive, there is a process that we will follow from the CDC and the DOH.*
- Christine Knorr – Sickness and calling off. *Do your screening at home. If you are not feeling well, CDC recommends you do not come to school or to work.*
- MaryAnn Boyles – Concern about returning to classroom.
- Ron Smith – Eating in classroom. Will there be sanitizing wipes available to clean their desks when finished. *Yes.*
- Ron Smith – Student tests positive and teacher is moving from room to room. *Follow the CDC guidelines. CDC says six feet and ten minutes. Everyone should be wearing masks and maintaining six feet apart. They should be sanitizing and wiping down their desks.*
- Ron Smith – Number of students in a bathroom. *It is specific to grade level.*
- William Readler – Busing situation and social distancing. *Everyone is expected to wear a mask. Buses are being sanitized between each run. The bus companies have a plan in place. We cannot guarantee it will be one student per seat. Runs have been added.*
- Karen Floryshak – Questions about positive cases and quarantining and if teachers will be paid. *There are two parts to legislation Emergency Paid Sick and Families First Coronavirus Response Act:*
  a. **Emergency Paid Sick Leave**
    i. Eligibility: All employees, regardless of the durations of their employment are eligible for this emergency paid sick leave, if they suffer from COVID 19 qualifying conditions. Full time employees are entitled to up to eighty (80) hours of paid sick leave. Additionally there is a part time employee component. There is a cap to two week payment. It is applied based on either employee OR employee caring for an individual or child.
    - *Paid sick leave wages is limited to no more than $511 per day up to $5,110 per employee when the employee is subject to subjected to quarantine, self-quarantine or suffering COVID-19 symptoms and seeking a medical diagnosis OR*
Paid sick leave wages is limited to no more than $200 per day up to $2,000 per employee when the employee is caring for an individual or child.

b. **FFCRA (Special FMLA)**: The Act temporarily expands the right of employees to take FMLA leave to care of their children during the COVID-19 epidemic. Begins after a 10 day waiting period

i. **Eligibility**

- Any employee who has been employed for at least thirty (30) calendar days.
- Any eligible employee who is unable to work (or telework) due to need to care for a son or daughter under 18 years of age, if the child’s school, place of care or child care provider is closed or unavailable due to a COVID-19 public health emergency

ii. **There is a cap to the payment.**

- The leave is paid at an amount of pay that is not less than two thirds (2/3) of an employee’s regular rate of pay, but not to exceed $200 per day or exceed $10,000 in the aggregate pay. This means that most teachers would receive $200 a day, not to exceed $10,000 (as teachers generally make more than $200 a day)

These two leaves expire December 31, 2020 under present legislation.

Contact the Business Office if either is needed.

- Do all elementary teachers have a plan if school closes again? Yes, google classroom and google meeting. Training was provided.
- Comment on agenda items before vote. Attorney Bull – Yes, that is the intention of the act and was the intention of the Board. Some things we could not hear. If a Board member wants to change a particular vote they can after hearing any discussion. They can ask for a revote.
- Shutdown – If we shut down, we will go virtual. Devices are coming in mid to late August and the next shipment will be in September to cover all the elementary students.
- MaryAnn Boyles – Concerned about in person instruction.
- Tanya Cleaver – Procedure of cleaning classrooms on a daily bases. Monitoring will be done more heavily than in the past. Sheets and training will be done. Building checks will be done on a frequent basis. We will make sure it is done including the paperwork to confirm it.
- Susan Eisenhauer – Testing. Plan to keep family members safe. Testing for asymptomatic can be done at Berwick, Hazleton and Susquehanna Medical.
- Susan Eisenhauer – Not bringing home something to our compromised families. Sanitize and wash your hands before entering into your home environment. Healthcare workers are leaving a change of clothes in the bathroom/mudroom to change into when they get home and throwing the clothes in the washing machine right there.
- Penny Smith – What are the CDC recommendations for parents to know to not send child to school. They are placed on each building websites. I can also mail those home with the check list. Fever, runny nose, cough, cold symptoms, sore throat, upset stomach, diarrhea are the main symptoms on the list.
• Jocelyn Getty – Will middle school students be wiping down their desks like the high school? Yes. They will be sanitizing before they leave to go home.
• Protection for teachers having to go from class to class. We are providing masks and shields for all of the teachers. Specials teachers, we are recommending single activities.
• Kristi Kerbacher – Mask breaks. Structured five minute breaks or whatever breaks and not the whole period of not wearing the masks. Needs to be staggered breaks.
• Jen Evans – Cleaning of kindergarten bathrooms. Will supplies be provided? We bought misting machines. They should sanitize their hands before going into the bathroom and after. Things in the bathroom need to be addressed. Sanitize before and after.
• Ashley Kocher – Cleaning throughout the school day. Wipes will be provided. If additional materials are needed, please ask. Kids have been dealing with this since March.
• Kelly Miller – Additional safety. Masks, shields, sanitizing and six feet apart.
• Danielle Eyer – Health screening for cyber children. With equipment pickup, the nurses asked if they could get some quick health screenings done then. We asked for only one parent to accompany the student. They are still our students and they have to have that part done.
• LeeAnn Kishbaugh – 5th grade orientation and homerooms. August 20th for Group B and August 21st for Group A. This will occur during the normal school hours. No orientation in the evening time.
• Crystal Mickalowski – Safety of wipes. We are making sure the wipes and everything else we are putting in the buildings are safe.
• Kelly Noroski – In class bathrooms vs hallway bathrooms. The Principals in the building have a plan. Depends on what works and what doesn’t. We can check with the administrative team.
• Brianna Seely – Safety of students who need restrained and obtaining social distancing. That is a concern. If we can’t maintain social distancing, the recommendation is for those kids to go cyber. We have changed that in the school code, if refusing to wear a mask. That is a mandate. That support is going to be there for the teachers to maintain social distancing.
• Tanya Cleaver – Wipes or hand washing before lunchtime. Physically washing hands is best before eating lunch.
• Tami Wiehe – New recommendations that came out today. We can stay six feet apart. We can maintain the six feet apart at the elementary level.
• Nicole Zakrewsky – 5th graders switching classrooms. 5th graders will be transitioning throughout the day. However, all middle school students will be with the same students half of their day, each day they are in the building. They will be having transitions throughout the day moving in a cluster four out of their eight scheduled periods of the day.
• Jen Evans – Plexiglass around their desks. At this time, it is not in our plan. If parents or teachers are asking for special accommodations, we are open for dialog.
• Ron Smith – Social distancing at recess. Yes. They will be encouraged to keep their mask on. We are encouraging outside play.
• Brian Seely – Why go every day at the elementary level? *It is the best means of education and we can do it by maintaining six feet apart.*
• Carrie Readler – Will the students be instructed on mask wearing, proper hand washing and wiping down their chair? *Yes.*
• Maryann Kovalewski – Could we have the Bulldog mascot wearing a mask doing a video on how to wear a mask, wash hands, wipe down tables and chairs?
• Karen Stimeling-Taylor – Wearing of masks. Students are encouraged to wear masks all the time. One of the times to take a mask break is outside, when they are eating and when they are seated and six feet apart.
• William Phillips – Reopening plan. Members view on returning for in person instruction? *We did a roll call vote last time on that.*
• Toni Phillips – Internet access. *Our IT person can help with students that don’t have internet and it is available. Harry Mathias is working on a grant for Columbia County for connectivity where areas that don’t have it. We did have a meeting with the Gans family from Hazleton with WYLN about connectivity. We are working on that.*
• Christine Knorr – Wipes and time to set to work. *We are fully aware of that. We follow the EPA. It’s a balance between kill time and safety. We are making sure everything is safe. Everything is a second defense. Make sure we are washing our hands frequently.*
• Melissa Spaide – Microfiber cloths. *We are going the microfiber material route.*

If there are any more questions email Mrs. Kupsky.

**Summarization of Executive Session:** Susy Wiegand

• Update on teacher negotiations.

Committee as a Whole meeting will be Tuesday, September 8th. The following Monday, September 14, 2020 will be the Board meeting

On a motion of Joseph DeMelfi, seconded by Keith Hess we adjourn the meeting. Motion carried. All members voting “Aye.” “Nay”- none and no abstentions.
